

ADDITIVE WORKSHOP OCTOBER 22, 2019

PHILLIPS FEDERAL AND EOS NORTH AMERICA WILL BE HOSTING THEIR ANNUAL
ADDITIVE MANUFACTURING WORKSHOP ON OCTOBER 22, 2019 IN PFLUGERVILLE, TX.

EDUCATE YOUR TEAM ON THE LATEST PROCESSES FOR AM IN THE
FEDERAL GOVERNMENT.

IMPROVE YOUR PROCESSES

Join our additive manufacturing experts for a hands-on workshop with live machine demos, discussions about current AM applications in the Federal Government, and insight on what is next to come for the AM industry.

Topics for the seminar include prototyping small production runs, fit checking, parts screening and selection, applications for AM, replacing legacy parts, tooling, machine limitations, and more.

EVENT INFORMATION

EOS is the producer of AM systems for additive manufacturing. The machines print in components of metal and polymer to enable customers to produce high quality products.
