

# SANDVIK COROMANT

## LUNCH AND LEARN – HANOVER, MARYLAND

### About this Event

Sandvik Coromant and Phillips Corporation will host a Good Vibrations Lunch and Learn to address a typical problem found in most shops - vibrations with long tools.

Unwanted chatter and vibrations cause poor surface finish, reduced tool life, and unwanted noise levels in your machining operations. These issues ultimately leads to poor productivity. This workshop presents best practices and live machining demonstrations for handling vibrations encountered in both milling and turning operations. Tips and techniques will be introduced that will help customers quiet vibrations and increase productivity. Come and discuss your toughest machining challenge with a Yellowcoat expert from Sandvik Coromant.

Attendees will learn to reduce vibrations with the following demonstrations:

- Set-Up Techniques
- Tool Path Strategies
- Damped Tool vs. Traditional Tool Demonstrations
- Types of Inserts and Lead Angles for Best Performance

The event starts at 10:00AM. Lunch will be provided.

<u>Location</u>	<u>Date and Time</u>
Phillips Corporation 7390 Coca Cola Drive #200 Hanover, MD 21076	Thur, September 19, 2019 10:00 AM – 1:00 PM EST
